273-80 dy 12-7-35
calls for the proposals for the distribution
of the water supply and Town Improvement grants for the current year
& 281 copy & abstract of it

Rec'd
13/7

Letter no C 6-35 dy 16-9-35 from the Asst Comm of Dh forwarding proposals for the distribution of the Town Improvement and water supply grants for the year 1935-36

The no C6 33 dy 16/9/35 sent to Asst Comm of Dh requesting that the grants may be sanctioned urgently to the extent of Rs mentioned in the Statement of Town Improvement grant by the Local bodies

The Director has not forwarded the proposals received from the Dep Comm of Dhs The Dep Comm of Shimoga and Tumkur have, however, forwarded copies of their communications

NOTE—Contn Sheet

Orders of the Hon'ble Secretary and the same are placed on the file

1) Mandya water supply. A sum of Rs 40000 has been allotted by the Director for this work. It has to be raised to Rs 57000, as this is the amount I have sanctioned as first instalment for the year

The work is in progress

Arsikere water supply. A sum of Rs 50000 only has been allotted. This has to be raised to Rs 12,750, which is the amount of first instalment sanctioned

H E

Sringeri water supply. No amount has been allotted for this work, especially in view of the fact that the scheme connected with this is under correspondence

Vide no 3579 noted herein

3) Arsikere drainage. As will be seen from the connected file that first is required to bear half of the excess expenditure on account of the revised estimate for the work of Rs 1162 over the actual sum provided by the Director as Rs 1600

Vide no 1159 noted herein

Serial No

14) with the modifications above suggested there will be an increase of Rs 8750 in allotments. This will have to be met from the reserved amount of Rs 40 000 under the two Grants and by curtailing the allotments under some other heads

~~for orders~~ 15) The proposal of the Bhadravati Water Supply Grant may be sanctioned, 18/9 subject to the condition that the works shared the undertaken by the Bureau of Sanitary Engg and not by the Local Bodies concerned in for orders under the existing rules it is only optional with the Municipalities to get works executed by the Sanitary Engr

6

16) Recd for orders

18/9 19/9 17) The Director has not furnished any details as to how the allotment for each work has been fixed, whether Govt have sanctioned the schemes, what portion of the Govt grant has been paid and whether the amount allotted is in accordance with the order of Govt on the subject &c &c

NOTE—Contn Sheet

1159
" 327
1502

25) The proposals of the Director of Health for the Distribution of the Water Supply & Town Improvement Grants are detailed in the Statement accompanying his letter Dy 16 9 35. Brief notes regarding each work for which provision is made are also sent by him with his letter Dy 27 9 35 (Flag O)

This are now enclosed in the Dy 1450 file

26) The Director has also sent a Statement showing the grants asked for by the Dy Comrs for the several Municipalities in their Districts

N

Water Supply grant- Rs 45000

The distribution of the Water Supply grant of Rs 45,000 proposed seems to call for some modification. For Mandya & Srirangapatna Water Supply Schemes grants of Rs 5000 and Rs 12,750 have been sanctioned in the respective Govt Orders, against Rs 4000 &

NOTE—Contn Sheet

Rs 5000 proposed by the Director So, the latter figures have to be altered to Rs 5000 & Rs 12750 respectively

2) For the Chamrajpet Water Supply, a sum of Rs 5000 is proposed by the Director Only the balance of Rs 19000 due on this account, a sum of Rs 12,583 was paid last year, leaving Rs 6417 yet to be paid This can be paid in two years according to the sanctioning of the scheme and so a sum of Rs 3200 may be allotted for the current year

3) With the above alterations, the total allotment comes to Rs 47,950 or Rs 2950 more than the sanctioned grant So the allotments proposed for some Municipalities have to be reduced, so as to bring down the total to Rs 45,000 The following reductions are proposed for consideration —

	Proposed by Dir	Now proposed
Madhugiri	Rs 3500	Rs 2000
Shikarpur	4000	3000
Arakalgud	2500	2000

Town Improvement Grant Rs 40,000

2) As the Director's proposals for the distribution of this grant may perhaps be approved with a small alteration For the Arkavathy outfall works an allotment of Rs 1600 is proposed, but according to a reference separately received the excess of the extra cost on account of the revised estimate for the work comes to about Rs 1160 So a sum of

M (Dated 4)

1450 / Distribution of the Water Tax during current Year

Serial No

Rs 1,100 may be given for this work and the balance of Rs 500 may be given for the improvements at Shravanabelgola, vide para 2 of G.O. no 46006-8/RE 2334 56 dy 27 2 1935

30 A draft G.O. sanctioning the proposals of the Director with modifications as above is submitted for consideration. The Director in para 2 of the draft that the works should be carried out by the Bureau of Sanitary Engineering in accordance with the Director's suggestion made in his letter no C-6-33 dy 16 9 35.

Director of Health in Mysore,
Bangalore

SIR

With reference to Development Secretary's letter No L 273-80/'1 dated the 12th July 1935 calling for proposals for the distribution of water supply and Town Improvement grants for the year 1935-36, I have the honour to state that there are four water supply schemes in this District as noted in the margin * in various stages Of these, the scheme for the supply of water to Channagiri has been partly worked out and as regards Shikarpur the scheme is ready for consideration and the other two are still in the initial stages and are under correspondence

* 1 Channagiri
2 Shikarpur
3 Honnali
4 Kumsi

In regard to Channagiri water supply scheme, I am to state that an estimate for Rs 14,200/- was originally prepared by the Bureau of Sanitary Engineering to sink a Bore well and distribute the water thereof to the Town by means of pipes As a part of the scheme a Bore well was sunk about a mile away from the Town at a cost of Rs 1640/- and the entire cost has been paid by the Municipal Council of the place As the Municipality had no funds at its disposal for financing further works contemplated, the estimate was revised to Rs 9200/- which included the cost of the Bore well Even according to the revised estimate a sum of P 5000/- was necessary for carrying on the work but as the Municipality even then had no money to pay any portion of the estimated cost, A recommendation was made

in this office letter No 3 C 295-170/34-35 dated 22-1-1935 that the amount required might be given as a grant from Government but this proposal was not approved by you with the observation that unless the Municipality could meet half the cost there was no question of giving an grant as recommended, and the matter stands now at this stage From the letter of the Sanitary Engineer-No 298 dated 29th July 1935, it is seen that the existing Bore well does not yield sufficient quantity of water for the whole Town and that the revised estimate is ~~for only~~ only for providing a few taps in the Town to make use of whatever water is available in the well As the quantity of water in the Bore well is found inadequate for the whole Town, and it is not even known what population of the Town is likely to be served by it and as the Municipality is not a position to meet any portion of the cost of the revised estimate now prepared, It seems to be very necessary and desirable to devise some cheaper method of making the bore well water available to the Towns people During my inspection of the Town, I have looked into the matter and I am of opinion that a cheaper method of achieving the same result would be to provide a rotary pump to the existing well, pump water to a lifting tank to be located at the highest point ~~in the town~~ on the road leading to the heart of the Channagiri Town up to which the water couldbe pumped up, and provide a few taps near the tank itself This I understand costsonly about Rs 2000/- and as the Muncipality has already paid Rs 1600/- for the Bore Well, a grant of Rs 2000/ - may at least be sanctioned to enable me to complete the work If the Bore well is found capable of supplying more water the cost of providing more taps further interior may not be much This is one of Dewan's Your Subjects which requires immediate attention

For Shikarpur an estimate for Rs 20,000/- has been

prepared and I have addressed Govemment to accord administra sanction for the same and orders are awaited As the Muncipality have resolved to contribute half the cost and the required money is available, a grant of P 10,000/- may be sanctioned for this work also so that ~~the work~~ it may be taken on hand this year

In regard to Town Improvement grant, applications are being received for the same from the Muncipalities of Shimoga and Bhadravati Last year, a recommendation was made in this office letter No M3 C 977/33-34 dated 24-11-1933 for the grant of P 5000/- to Shimoga Muncipality for filling up pits and hallows, removal of rank vegatation and draining off of water logged areas with a view to improve the health of the Town and a statement of such works with the probable cost of each item ~~x~~ of work was also forwarded therewith But no grant was sanctioned on the ground that no amount was available at the time out of the Town Improvement Grant It seems absolutely necessary to carry ~~out~~ on an Anti malarial campaign in the Shimoga Town on the lines of the scheme which is now ~~pending~~ being worked out in the Bangalore City Muncipality and this can be done only if a grant is sanctioned to the Shimoga Town Muncipality I request ~~that~~, ~~in these circumstances~~ that a grant of P 8000/- may be kindly got sanctioned for Shimoga Further Bhadravati Town has to be improved and as a preliminary the slumps have to be cleared by resorting to acquisition of certain ~~rank~~ private properties Some of the proposals for acquisition have been kept by, ~~the~~ by the Muncipality for want of funds A grant of P 2000/- may be sanctioned for that Muncipality

In view of the above circumstances I request that

677

677

a sum of ₹ 12,000/- for Water Supply Scheme and Rs 10,000/- for Town Improvement may kindly be sanctioned to this District out of the current year's grant

I have the honour to be,
Sir,

SIR

With reference to your letter No L 2198 dated 19th September 1935, about the proposals for the water supply and town improvement grants for the current year, I have the honour to forward a brief Note in regard to each work so as to make it clear on what basis the allotments are proposed

A statement showing the requirements of several works as intimated by the Deputy Commissioners is also herein enclosed

I have the honour to be,

Sir,

Your most obedient servant,

Ag Director of Health

N O T E

WATER SUPPLY

Madhugiri - A scheme for the water supply of this town has been sanctioned by Government and the work is completed The yield from the bore well put down for this purpose is inadequate and hence it has not been possible to supply water to all the fountains in the town A second bore well has been put down in the Travellers Bungalow compound and linking the two is necessary in order to afford adequate water supply to the town As per estimate forwarded by the Sanitary Engineer, the cost of this scheme is Rs 7,000/- and the President reports in his letter No 35 dated the 29th July 1935 that with the slender resources of the Municipality, it is not possible to meet more than half the estimated cost Hence the amount of Rs 3,500/- is provided for this purpose during the current year

Kunigal - Bore wells have been put down for the water supply of this town But, for want of finances, the Municipality has not been able to make use of water in any way The sum of Rs 2,500/- is therefore provided to enable the supply from the bore wells being utilised by the public

Channagiri and Shikarpur - The Deputy Commissioner, Shimoga District has requested for a grant of Rs 12,000/- from the water supply grant, Rs 2,000/- being for Channagiri and Rs 10,000/- for Shikarpur, Vide his letter No M C 3 24, 6 dated 6-8-1935 herein enclosed

The Municipality at Channagiri have spent about Rs 2,000/- for the bore well and hence a grant of Rs 2,000/- is proposed to be given out of State funds for a pump and accessories to enable the bore well water being used

As regards Shikarpur, a project amounting to Rs 20,000/- for the water supply of the town has been prepared by the Sanitary Engineer and the Municipality desire a Government contribution

contribution of Rs 10,000/- being half the cost of the scheme A sum of Rs 4,00/- is provided towards this in the current year's budget

Tarikere - A scheme for about Rs 60,000/- for water supply to Tarikere town has been forwarded by the Sanitary Engineer and a grant of Rs 3,000/- is provided towards the Government share of the cost

Mysore District, Nanjangala and Chandra - A grant of Rs 1,500/- and Rs 4,000/- respectively for these Municipalities are provided towards the Government share of the water supply projects prepared therefor by the Sanitary Engineer The amounts of estimate for water supply to these places are respectively Rs 12,000/- and Rs 65,000/-

Hassan District, Holenarasipur - According to para 2 of Government Order No L 7192-5/M1 256-32-6 dated 5th April 1934 Government were pleased to contribute Rs 13,000/- towards the capital cost of the water supply project, the grant being in annual instalments of Rs 5,000/- commencing from 1934-35 Hence a provision of Rs 5,000/- is made during the current year

Kollegal - The amount of the sanctioned estimate is Rs 21,500/- and as per Government Order No L 3657-9/M1 105-33-4 dated the 23rd November 1934, the Government contribution is Rs 7,000/- To end of 1934-35 a total of Rs 5,000/- is given as grant, and hence a grant of Rs 2,500/- is provided during 1935-36

Arsikere - According to Government Order No L 1688-90/M1 7-33-29 dated 31st August 1935, the water supply project is sanctioned for an amount of Rs 27,750/- and a sum of Rs 5,000/- is provided towards the Government share for the water supply project

Arkalgud - A Bore well has been put down in the petta and it is found that it yields about 1500 gallons per hour A

A grant of Rs 2,500/- is proposed during the current year as Government share of a project amounting to Rs 6,000/- for utilising this bore well water This project has been prepared by the Sanitary Engineer and forwarded to the Municipality

Bangalore District Channapatna - The scheme for water supply was sanctioned in Government Order No L 5940-43/11 65-30-33 dated 3/5th February 1934 and Government promised to contribute half the cost viz , Rs 24,500/- During 1933-34 a sum of Rs 5,500/- was paid an the balance was promised to be paid during the next two or three years Hence, half the balance of Rs 9,500/- was provided during the year 1934-35 and Rs 5,000/- is provided during the current year

Chitaldrug District Ja alur - The Municipality is contemplating a scheme of water suppl from a well that is put down in the shandy grounds and hence a sum of Rs 1,000/- is provided for this water suppl,

DRAINAGE AND TOWN IMPROVEMENTS

Chitaldrug District [D vanagere] As per Government Order No L 5244-6/11 150-33-3 --- dated 16th January 1934 the drainage scheme of this town was sanctioned and Government have promised to contribute half the cost The last stage of the scheme is under execution by the Municipality, and a sum of Rs 4,000/- is provided towards the Government share

Kolar District Kolar- According to letter No A5 C 3452 dated the 15th July 1935, from the Deputy Commissioner, Kolar District, a sum of Rs 3,000/- is urgently required for the sewer outfall works at Kolar Hence this sum is provided during the current year

In accordance with the same letter, provision of Rs 1,000/- respectively for the Municipalities of Sidlaghatta and Chintamani is also provided for drainage works

Shimoga District Bhadravati In Letter No M 3 C 240-69 dated 6-8-1935, the Deputy Commissioner, Shimoga, has requested for the grant of Rs 2,000/- for Bhadravati town to clear the slums on account of its proximity to the Iron Works and since it is considered a very necessary improvement, a sum of Rs 1,000/- is proposed out of current year's budget

As regards Shimoga, a recommendation was made by the Deputy Commissioner in his letter dated 24th November 1933 for a grant of Rs 5,000/- for filling up pits and hollows and for draining off water logged areas with a view to improve the health of the town But no grant was sanctioned during that year since no amount was available at the time out of the town improvement grant A sum of Rs 2,000/- is provided during the current year

Tarikere - In Government Order No L 5972-4/M 1 156-31-2 dated 19th February 1932, Government have sanctioned the construction of the main drain at an estimated cost of Rs 17,000/- half the outlay is promised to be given by Government after the Municipal share is spent

The work costing Rs 17,000/- has been completed but against an amount of Rs 8,500/- that should have been given by Government during 1934-35 a sum of only Rs 5,000/- was allotted, hence the balance of Rs 3,500/- has to be now found to enable the payments being made for works already carried out

During the current year, the Municipality has allotted a sum of Rs 10,000/- for further work in the Drainage scheme and hence a sum of Rs 2,500/- is provided in the current year's budget making up a total of Rs 6,000/- towards Government share The balance will be provided for next year

Kolar District, Chikmagalur - The Municipality have spent Rs 5,300/- during 1934-35 for the construction of drain in the Bazaar street and they have allotted a further sum of Rs 5,000/- for continuing the work this year It is necessary to complete this

complete this work at a very early date and hence a sum of Rs 2000/- has been provided in the current year's budget

Seringapatam - In his letter No D3 152 dated the 29th August 1935, the Deputy Commissioner, Mysore District has requested for a grant of Rs 1,500/- for the improvement of Seringapatam and Ganjam and the same is provided for in the budget

Hassan District Arsikere - The outfall works at an estimated cost of Rs 4,300/- was sanctioned by Government and during the execution it was necessary to revise the estimate and hence the revised estimate amounting to about Rs 6,400/- has been submitted to Government for sanction A sum of Rs 1,600/- is now provided as Government share towards the cost of this work

Banavar - During the Dewan's tour in the District, it was observed that this town was in urgent need of drainage, particularly in the main street, and hence an estimate for the same has been prepared and a grant of Rs 1,000/- provided from the State funds

Hassan - Drainage project for this has been submitted to Government in this office letter No C 397-2/ dated 13th September 1935 and the Deputy Commissioner has asked for a grant of Rs 8,000/- for this work A provision of Rs 4,000/- is however made for the same

Channarayapatna - The Deputy Commissioner has asked for a grant of Rs 2,000/- for the drainage of this town and a sum of Rs 1,000/- is provided

Bangalore District Kankanhalli - A scheme amounting to Rs 3,804/- has been forwarded for constructing drains in the main Bazaar road of the town and the Municipality are ready to contribute money for this work Hence a sum of Rs 1,500/ is provided for the same

Ag Director of Health

Letter No I3 C 240-69/35-36 dated 6th August1935 from the Deputy Commissioner, Shimoga District, Shimoga, to the Director of Health in Mysore, Bangalore

---

With reference to Development Secretary's letter No L 273-80/M1 dated the 12th July 1935 calling for proposals for the distribution of water supply and town improvement grants for the year 1935-36, I have the honour to state that there are four water supply schemes in this District as noted in the margin in various stages Of these, the scheme for the supply of water to Channagiri has been partly worked out and as regards Shikarpur the scheme is ready for consideration and the other two are still in the initial stages and are under correspondence

1	Channagiri
2	Shikarpur
3	Honnali
4	Kursi

In regard to Channagiri water supply scheme, I am to state that an estimate for Rs 14,200/- was originally prepared by the Bureau of Sanitary Engineering to sink a Bore well and distribute the water thereof to the town by means of pipes As a part of the scheme a bore well was sunk about a mile away from the town at a cost of Rs 1,645/- and the entire cost has been paid by the Municipal Council of the place As the Municipality had no funds at its disposal for financing further works contemplated the estimate was revised to Rs 9,200/- which included the cost of the Bore well Even according to the revised estimate a sum of Rs 8,000/- was necessary for carrying on the work but as the Municipality even then had no money to pay any portion of the estimated cost, a recommendation was made in this office letter No I3 C 985-170/33-34 dated 22nd January 1935 that the amount required might be given as a grant from Government, but this proposal was not approved by you with the observation that unless the Municipality could meet half the cost, there was no question of giving any grant as recommended, and

and the matter stands now at this stage From the letter of the Sanitary Engineer No 298 dated 29th July 1935, it is seen that the existing bore well does not yield sufficient quantity of water for the whole town and that the revised estimate is for providing only a few taps in the town to make use of whatever water is available in the well as the quantity of water in the bore well is found inadequate for the whole town, and as it is not even known what population of the town is likely to be served by it and as the Municipality is not in a position to meet any portion of the cost of the revised estimate now prepared, it seems to be very necessary and desirable to devide some cheaper method of making the bore well water available to the town people During my inspection of the town, I have looked into the matter and I am of opinion that a chea er method of achieving the same result would be to provide a rotary pump to the existing well pump water to a lifting tank to be located at the highest point on the road leading to the heart of the Channagiri town up to which the water could be pumped up and provide a few taps near the tank itself This I understand costs only about Rs 2,000/- and as the Municipality has already paid Rs 1645/- for the bore well a grant of Rs 2,000/- may at least be sanctioned to enable me to corplete the work If the bore well is found capable of supplyingmore water the cost of providing more taps further interior may not be much This is one of De an's tour subjects which requires immediate attention

For Shikarpur an estimate for Rs 20,000/- has been prepared and I have addressed Government to accord administrative sanction for the same and orders are awaited As the Municipality have resolved to contribute half the cost and the required money is availa le, a grant of Rs 10,000/- may be sanctioned for this work also so that it may be taken on hand this year

In regard to Town Improvement grant, applications are being received for the same from the Municipalities of Shimoga and Bhadravati Last year, a recommendation was made in this office letter No M 3 C 977/33-34 dated 24th November 1933 for the grant of Rs 5,000/- to Shimoga Municipality for filling up pits and hollows, removal of rank vegetation and draining off of water logged areas with a view to improve the health of the town and a statement of such works with a probable cost of each item of work was also forwarded therewith But no grant was sanctioned on the ground that no amount was available at the time out of the Town Improvement grant It seems absolutely necessary to carry on an Antimalarial campaign in the Shimoga Town on the lines of the scheme which is now being worked out in the Bangalore City Municipality and this can be done only if a grant is sanctioned to the Shimoga town Municipality I request that a grant of Rs 8,000/- may be kindly got sanctioned for Shimoga Further Bhadravati town has to be improved and as a preliminary the slums have to be cleared by resorting to acquisition of certain private properties Some of the proposals for acquisition have been kept by by the Municipality for want of funds A grant of Rs 2,000/- may be sanctioned for that Municipality

In view of the above circumstances, I request that a sum of Rs 12,000/- for water supply scheme and Rs 10,000/- for town improvement may kindly be sanctioned to this District out of the current year's grant
